

SVRA Technical Bulletin #TB2013-001

Subject: SVRA Supplemental Tire Regulations

From: Roger D. Linton, Technical Director

Date: January 4, 2013

We have revived the **SVRA Supplemental Tire Regulations** document that had been in use for most of the past 20 years. This is a consolidation of the tire regulations that recently had been listed in the Group Supplemental Regulations and the individual Make and Model Specification Sheets.

The intent of these rules remains to specify tires that are a reasonable compromise between the tires raced with during the period and what is currently available. Availability in sufficient sizes to maintain equitable tire performance within the Group and Class structure is of primary importance.

The SVRA Supplemental Tire Regulations is available at www.svra.com/rules/ and contains information on tire selection and requirements for all SVRA Groups.
