

SVRA Competition Bulletin #CB2013-008

Subject: Qualifying and Grid Positions

From: Raymond Snowdon, Competition Director

Date: May 28, 2013

Following the first 3 races of the SVRA 2013 season, and with substantial input from participating drivers, we feel an adjustment to the current Qualifying format is warranted. Effective June 1, 2013, Qualifying format will be as follows.

QUALIFYING/GRID POSITION

Sprint Race 1 and Enduros: ALL RACE GROUPS: Grids will be based on the quickest times posted from the two (2) Qualifying sessions.

Sprint Race 2: Open Wheel Groups (Group 2 and Group 9): Grids will be based on the quickest time from Sprint Race 1. If no time has been posted from Sprint Race 1, the Grid Marshall will slot that driver, at his discretion, in the interest of safety. Grid Marshall decisions are final.

Sprint Race 2: All Other Groups (Groups 1,3,4,5,6,7,8,10,11): Grids will be based on the finishing position from Sprint Race 1. If no finishing position has been posted from Sprint Race 1, the Grid Marshall will slot that driver, at his discretion, in the interest of safety. Grid Marshall decisions are final.

If conditions, such as weather, affect the normal format for setting a Grid, SVRA officials reserve the right to use any session and any manner to set a safe and proper Grid.
