

VIR Paddock and Garage Regulations

The VIR Paddock area has been completely paved for 2014. Please follow the rules below.

Paddock Care: The asphalt at VIR may not be punctured by anchors, stake, jack stands, etc. Use weights, water buckets, etc. (Do not use N₂ bottles). All awning or tent poles, jack stands etc. must have wood pads under them. Weights or wood pads are NOT available from the race track. Some type of trailer tongue rest must be used to prevent sinking into asphalt. Spills, leaks, liquids etc. must be cleaned up properly. Drip pans are suggested under a lot of Vintage cars. VIR staff will monitor the paddocks on a regular basis and you will be charged for any paddock facility damages.

Garages

Fueling, storing of fuel or starting/running a race car in a garage is **STRICTLY PROHIBITED**. Room is provided on the paddock-side Fire Lane for this purpose. Pull your car outside of the garage before you start it. Fuel should be stored in your hauler. Garage renters should have a Fire Extinguisher in their garage unit.
