Waste Fluids

Portland International Raceway has containers throughout the paddock for waste oil and antifreeze. If you have questions about their location, tech will be able to assist you.

Sound Limit

Portland International Raceway requires sound levels to be measured. The sound meter is located on driver's left exiting Turn 12. SVRA has a 112 variance which means at 111 drivers are cautioned. If you hit 112 you will be black flagged and have ONE opportunity to make the car quieter. If you cannot comply, you will be disqualified.

If you are concerned about your car exceeding this limit, these tips may help:

- Point your exhaust/muffler toward driver's right
- Let off the gas as you go by the sound station
- Go by the sound station with other car/s

Black Flag:

Black Flag station is at Turn 8 and the flag will be shown both their and start/finish.

Fire Extinguishers:

Each competitor must have a fire bottle displayed in their paddock area.

Animals:

Pets are allowed, but they must be on a leash at all times and owners must pick up after them.
