

CALIFORNIA VEHICLE CODE TRANSPORTER INFORMATION

California Vehicle Code 35401.5, affects solely motorsports industry transporters.

It states that "... a combination of vehicles consisting solely of a truck tractor semitrailer combination with a kingpin to the rearmost axle measurement limit of not more than 46 feet, a trailer length of not more than 56 feet, and used exclusively or primarily in connection with motorsports..." will need a permit when traveling in the state of California.

You can find these forms to obtain the permit at:

<http://www.dot.ca.gov/trafficops/permits/docs/TR0015-single-trip-permit-app-xffrm.pdf> . In the search bar at the top of the page

type TR-0015 to bring up the form. The "Permit Application TR-0015" should be completed and faxed to (916) 322-4966.

Caltrans will then verify the information and fax it back with a permit number.

Additionally you will also need to print out the "Special Conditions for 24/7 Travel" and the "Transportation Permit Conditions." Which can also be found by typing in the search bar.

The permit is only valid when the driver is carrying the approved permit with all required attachments. The drivers will need to have all paperwork in hand, prior to entering California.

If you are held by the California Highway Patrol or Caltrans due to lack of permit, WeatherTech Raceway Laguna Seca is not responsible for any fees or inconveniences. Please visit the Department of Transportation website listed above for more

information or you may contact Joseph Bayless with the California Department of Transportation - Permits Division at (916) 322-4764 or Joeseeph_Bayless@dot.ca.gov.
