

## Gold Medallion Tire Requirements

### **CLASS TIRE REQUIREMENTS:**

While tires of 70 series or higher aspect ratios are required in classes A, B, C, E, G-1 and G-2, a 60 series tire will be allowed if appropriate in D, G-3 and G-4.

Note: There may be some individual tires that may also approximate original tires for a specific car. These might include a 70 series radial tire. A request to use such tires, made in advance, will be considered.

### **CLASS ACCEPTABLE TIRE**

A-1 1900-1926 Sports & Racing Cars - FREE
