Dear COTA Competitor,

Due to the large number of competitors and limited paddock space at COTA, we will employ the following policies:

1) **Only RV's pulling a race car will be allowed in the paddock.** It is our goal to get every race rig into one of the COTA paddocks. Please find an alternate location for your stand alone RV. An alternate RV park with limited spaces is available near the tunnel, (512) 655-6226. Ask for Jade or Fran.
2) **Street cars will not be allowed in the paddock during load-in.** There is no room to park street cars in the paddock and oftentimes they are parked in a location that slows down the load-in process.
    a) If you paddock in the main paddock or the Trans Am paddock you can park your street car in Lot N and walk across the pedestrian bridge.
    b) If you paddock in Lot A, you can park your street car near the entrance of the lot just after you turn off COTA Blvd. **You may only park there Wednesday-Friday.**
3) **Please plan on parking your street car in Lot N all weekend.** Shuttles are available once you cross the pedestrian bridge starting Wednesday. This will take a few more minutes to enter the paddock so please plan accordingly.
4) **A limited number of delivery passes are available.** Pick up a pass at Registration, make your delivery, return the pass to Registration, and park your vehicle in Lot N. Your car may be towed if this pass is abused.

Thank you for understanding.
Jeff Luckritz
Racing America Paddock Director
